Composite Toe Safety Shoes

Advanced S3 safety shoes with ESD protection, lightweight design and superior comfort – ideal for electronics, logistics, light engineering and industrial environments.

TECHNICAL SPECIFICATION

Upper	Microfiber leather
Lining	Breathable Sandwich fabric
Insole	Anti-static breathable EVA-coated mesh
Outsole	PU/PU
Toe cap	Composite
Midsole	Kevlar
Weight	Approx. 900g/pair (depending on size)
Size range	EU 35-47
Standard	EN ISO 20345:2022 S3
ESD	Electrostatic Discharge

S3

S3 safety shoes offer protection against moisture, oil, punctures, and toe impact.

SLIP RESISTANCE

Superior slip resistance on both steel and ceramic surfaces. Passed SR testing with SRA+SRB.

COMPOSITE TOE CAP

Lightweight, non-metallic toe cap with impact resistance up to 200J and compression up to 15kN.

STEEL MIDSOLE

Protects your feet from sharp objects penetration. Lightweight, flexible and metal free.
